

CRAFT & CO., LTD.

Material Safety Data Sheet

Company name: Craft & Co., Ltd.

Address: 16-21, Ogikubo 5-chome, Suginami-ku, Tokyo

Telephone No.: 03-3393-2222

Responsible department: Planning department

Date of creation: 30th August, 2021

1. Product name

Burnishing Gum TOKO PRO

2. Identification of substances

Distinction of Single product/Mixture:

Mixture

Chemical name (main ingredients):

Water-based glue, Wax, Water-based resin

Chemical Substance Control Law Number:

Registered

3. Classification of hazards, Name of classification

Name of classification: Does not fall under the classification standard.

Environmental impact: Do not release into the environment since influence on the environment is unknown.

4. First-aid measures

After eye contact:

Immediately wash with plenty of water, and get medical attention if irritation occurs.

After skin contact:

Rinse with plenty of running water with soap etc.

In case that any abnormalities is felt while using, consult a doctor.

After inhalation:

Immediately rest at fresh air. In case that any headache, dizziness, nausea, dyspnoea etc. is felt, get medical treatment.

After swallowing:

Drink and spit out a few cups of water or milk, and consult a doctor.

5. Fire-fighting measures

Acrylic emulsion does not burn, but burns when dried.

Extinguishing agent: Carbon dioxide, dry chemical, water spray

6. Accidental release measures

Prevent the spilling liquid from flowing directly into drainage, sewage, underline, lakes and oceans. Wear protective equipment such as protective glasses, goggles, rubber gloves when working.

## 7. Handling and Storage

Handling: Do work in a well-ventilated place when working. Wear rubber gloves, protective glasses etc.

Storage: Store while avoiding direct sunlight, high temperature places, and freezing.

## 8. Exposure controls

Equipment measures: Use a local ventilator.

Protective measures: Wear safety glasses, rubber gloves, aprons.

## 9. Physical and chemical properties

Appearance: Milky white viscous liquid

Odor: Distinctive smell

Flash point: Non-inflammable

Solubility: Mixable in water at arbitrary rate

pH: 8 - 9

## 10. Danger information (stability, reactivity)

Flammability: None

Self-reactive/Explosive: None

## 11. Toxicological information

Irritation: Slightly irritating to the skin and eyes

Other effects: Not confirmed

## 12. Ecological information

Degradability: No data

Accumulation property: No data

Fish toxicity: When flowing out to a river or the like, fish may die because of dysnea due to sticking of the resin in the emulsion.

## 13. Disposal considerations

Incinerate when disposing.

Do wastewater treatment such as coagulation sediment, activated sludge. Please pay attention to the Water Pollution Control Law.

## 14. Transport information

When transporting, make sure that there are no leakages in the container, load so as to prevent overturn or falling damage, and ensure to prevent load collapse.

15. Regulatory information

16. Other information
